

transcend Arabia
Beyond The Box

OUR MISSION:

Transcend Arabia believes in providing optimum service and premium products to the clients and collaborators of the company with efficient and conducive effort with the aim of bringing about healthy relationships and absolute satisfaction. We believe in making combined efforts in upbringing the nation and in turn the world. More so, we aim at contributing more to the work force and product supply in the Industrial development scenario.

OUR VISION:

Transcend Arabia aims at bestowing the coming generation a wider, broader and a stronger base to provide better opportunities, innovation and standards of life. To put the resources we have to better use and thereby save more for the future and provide them with a great example of how our generation designed the world. We hope to look at a brighter tomorrow and a broader world where industries become complementary to the combined good of the world. We aspire to be the ultimate providers and caretakers of the tomorrow's Industrial needs.

OUR VALUES:

We believe safety is paramount; we strive to be honest, open and reliable, to embrace change and to develop our skills accordingly. We aim to provide best value at all times and to adopt a policy of shared learning.

OUR STRATEGY:

To enhance Health & Safety in all areas, to deliver best value solutions, to partner with clients where exceptional service is a priority, to build relationships with the total supply chain, to actively encourage all employees to continue their professional development and to evaluate and re-evaluate for continuous improvement.

About Us

Transcend Arabia is one of the Saudi Arabia's is one of the leading service providers established to meet the continuous complex demands of Engineering Industrial Sector. Over time the business has evolved, we are multi-product specialists with a wealth of knowledge and experience in delivering solutions for a range of sectors including construction, infrastructure, industrial support services and events. We offer years of expertise, certified training, a range of added value services and most importantly, a total commitment to ensuring your safety at all times.

Our success is built on lasting relationships and repeat business. This allows us to develop in-depth understanding of client needs and tailor our services to provide efficient engineering solutions that add real value.

In a challenging business environment we seek to maintain our edge through the personal involvement of the Partners and by maintaining a highly skilled and local workforce who can produce cost effective, sustainable and creative design solutions. Responsiveness and flexibility is reflected in our service delivery.

Commitment to the concepts behind this corporate framework has driven the Transcend Arabia Group to achieve ever higher standards of individual and team accomplishment over the past decade.

Contracting

Transcend Arabia Contracting is division of the Group, providing the highest quality building services solutions within the built environment. For over a decade we have been successfully operating in the field of Civil & Infrastructural Projects.

Every project is managed and controlled by qualified team of design engineers, who oversee all aspects from initial estimating through to completion, commissioning and handover.

Cooling Tower

At Transcend Arabia, we provide unparalleled service and support for cooling tower system. Whether it is a single replacement part, a thermal upgrade to improve performance, refurbishment of the cooling tower system or construction of a new Cooling tower system.

We provide a range of services including the design, installation and construction of all types of cooling tower as well as parts and maintenance services. We work with all market sectors who are users of Field erected Cooling Tower, Package type Cooling Towers, Closed type Cooling Tower (Induced and Forced draft)

We specialized in:

- Supply and Installation of New Cooling Tower.
- Thermal up gradation.
- Cooling Tower Refurbishment.
- Cooling Tower Inspection and Cleaning.
- Annual Maintenance Contract.
- All Kind of Cooling Tower Spare Parts.

Turnkey Contract Service

Pipeline: SS/CS/MSHDG/FRP/GRP Piping - All types of Pipe Installation, Pipe Lamination, Welding and Repair.

FRP Works:

- FRP Tanks: Erection and Maintenance – All types of Tanks.
- FRP Lining: FRP Lining and Coating for Tank, Vessels, Piping and Structural against Chemical Resistance & Corrosion. FRP Lining are available in different class of Resin including Epoxy Resin and Customized specification to suit customer specific application & requirement.

Site Preparation, Backfilling Works, Temporary Road Works: We have carried out a number of important projects involving site preparation, backfilling, construction of temporary roads etc. and we own a number of graders, vibratory rollers etc.

We own a number of mobile crushers which can be used to prepare backfill material from the excavated material at any given site. This resulting processed material can be utilized at the same project for backfilling thereby bringing significant cost savings to the project.

Structural Erection: All type of FRP and Steel Structural Erection.

Mechanical Contract: Installation and Erection of Mechanical Equipment's.

Heavy Equipment

Transcend Arabia Contracting has developed an impressive record over the last decade in the construction rental industry. Having diversified and grown from humble beginnings, the company continues to provide an excellent service and maintains a great reputation for product knowledge.

Equipment rental services is the fastest growing branch of Transcend Arabia with wide range of heavy duty and light duty equipment's to countless machinery products that we own, we are more than happy to be featuring our best resources before you. Additionally we also offer productive manpower rentals, for any sorts of requirements you may come across for the running of your project.

As for our machinery and equipment rental services, we guarantee regular checkups and quality assurance along with accurately timed delivery. Making sure that the products on rent meets the job just right. Along with our machinery rental services, we also provide training for your workers on how to handle the equipment's the faultless way. We also ensure safety measures are being taken under face value.

Heavy Equipment

Following are our some featured services being offered in Saudi Arabia and Gulf.

- All Terrain Cranes
- Certified Mobile Cranes of capacity 25 to 500 Ton
- Low Bed Trailer 30 to 200 Ton
- Flat bed Trailer 25 to 40 Ton
- Dyna Truck 6 Ton
- Boom Truck 5Ton to 18 Ton
- Winch Truck 6 Ton
- Water Tanker 12000 to 32000 liters
- Diesel Tanker 6000 to 12000 Liters
- Fork Lift 2.5 to 18 Ton
- Telescopic Forklift 4 to 5 Ton
- Rough Terrain Forklift 3 to 5 Ton
- Electric Forklift 2 to 5 Ton
- LPG Forklift 2 to 10 Ton
- LPS Forklift 2 to 10 Ton
- MAN LIFT – 16 Meter to 43 meter
- Scissor lift – 6 Meter to 18 Meter
- GENERATORS – 20 KVA to 1000 KVA
- Tower lights – 4 X 1000 Watts
- Welding machine – 400 Amps and 500 Amps
- Air Compressor 185 CFM to 1500 CFM
- Air Dryer
- Light Vehicle
- Rough Terrain Cranes
- Truck Cranes and Crawler Cranes
- Ranging from 25 Tons up to 1,200 Tons.
- Excavator
- Wheel Loader
- Roller Compactor – 10 Ton
- Dump Truck – 16 Cu.M to 32 Cu. M
- Grader
- Bulldozer
- Backhoe loader
- Skid Loader
- Side Boom
- Jack hammer
- Plate compactor

Specialized Manpower Supply

We meet all service requirements, from a single person on a daily basis to a total management and operation of a large group or project. Our multi-disciplined and dedicated professionals are available at your service. Transcend Arabia is engaged in supply of all categories of skilled, semi-skilled and unskilled manpower for the clients with all degrees of disciplines without any delay. The company allows no reservations on these aspects regarding requirement, provided the candidate fulfill the criteria regarding education, experience, communication skills etc. So they work with full dedication.

- Aramco & TUV Certified Heavy Equipment Operators
- Aramco & TUV Certified Rigger I II III
- Electrical Design Engineer
- Instrument Design Engineer
- Civil Structural Design Engineer
- HSE Manager
- HSE Supervisor
- Civil/ Mechanical/ Piping/ Electrical Inspectors
- Civil/ Mechanical/ Piping/ Electrical Engineers
- Piping Design Engineer
- Project Engineer
- Planning Engineer
- Geological Engineers
- Geological Surveyors
- IT Engineer
- Sales Engineers - Cost Controller
- Quality Assurance & Control Manager
- Control System Specialist
- Electrical Design Engineer
- Quantity/ Land Surveyor
- Skilled Workers
- Non-Skilled Workers

Trading and Material Supply

We have alliances with a diverse group of companies in Saudi Arabia and abroad, that are based on mutual understanding of building long-term stable relationships. With that, we are able to provide quality, low-cost services to our customers.

The array of best merit products supplied by us consists of Industrial Pipes & Fittings, Valves, Flanges, Structural Steel, Gratings, Equipment's and Tools, Nuts & Bolts, etc. We are currently serving various petrochemical companies, Refineries, Power projects, Water treatment plants, engineering construction companies Etc.

- Electrical
- Instrumentation
- Mechanical
- Construction
- Safety Items
- Pipes And Fittings
- Office Stationary
- Equipment's And Parts Etc...

Transportation

Our transport division is a one stop shop solution for all heavy and critical lift and shift requirements. We offer a single window to our clients from initial planning to execution. Transcend Arabia is known for its on ground transport services for industrial sector to transport industrial vessels and construction equipment's throughout Saudi Arabia. Our specialized equipment's allow us to customize each move as needed. We arrange all permits needed to make the movements wherever needed and pride ourselves in our fleet's ability to deliver on time and safely.

Transcend Arabia's Transportation division is the result of a growing need in the Saudi Economy to manage the abundance of transporters currently operating in the Kingdom. With this in mind Transcend Arabia has developed three Transportation services to service the specifically identified needs.

The first of these services is to provide full distribution solution. Transcend Arabia will provide the correct fleet with the correct size to handle the client's distribution need, whether it is from warehouse to end user port to warehouse. This service is provided across the Kingdom.

The second service is our transportation brokerage system. We manage to get the best transporter at the best rate to handle any transportation need. We manage to do this with a growing database of transporters across the Kingdom. We have access to over 2,800 vehicles and manage full or less than truck load quantities

The last service we offer has revolutionized the way companies dispatch and manage their trucks. This service has been proven to reduce cost, time and time again. The service is called Route Optimization Management. We use sophisticated algorithms to provide the best route possible. The table below represents the complexity of Route Optimization.

NDT Inspection Services

Our NDT division with ASNT level-III, Level-II certified NDT technicians to execute our jobs.

- Ultrasonic Testing Of Welds.
- UT Thickness Gauge and Corrosion Scanning.
- Magnetic Particle Testing.
- Penetrate Testing.
- Radiography

Mechanical QA/QC

Our services in the area of construction projects is QA/QC support Preparation and qualification of WPS(Welding Procedure Specification), PQR (Procedure Qualification Record) and WPQ (welders performance qualification) as per ASME IX.

- Welding Inspection, Painting Inspection And Material Inspection.
- Piping And Mechanical QC Support.

Lifting Equipment Inspection

Inspectors Union Company provides a structural integrity inspections/assessment on Lifting and Hoisting equipment as part of Inspection plan/annual survey and to meet legal/safety requirements. Periodic inspection of the lifting equipment/loose gears to ensure that the equipment is safe and fit for service. After completion of Inspection subsequent results reporting and its documentation provided in accordance with the applicable standards and specifications.

Certified Welding and Painting Inspectors

- CWI(AWS,CSWIP 3.1) Welding Inspectors.
- BGAS,NACE Painting Inspectors.
- Hardness And PMI Inspectors
